 - i. Date
 - ii. Seulement les plus vieux?
9. Varia

The WE Schools program provides educators and students with curriculum, educational resources and a full calendar of action campaign ideas. Through WE Schools, students gain an understanding of the root causes of pressing issues like hunger, poverty and access to education, as they explore how they can make positive impacts.

Schools which participate in the WE Schools program have several free educational resources at their disposal, among which:

- A free educational Kit in which you will find all the resources that educators and their students will need to incorporate our program into their school.

- The possibility of receiving a speaker, free of charge, in your school in the objective to encourage the students to become the future leaders that they are intended to be. Even if you do not plan to implant the program this year, it would please us to visit your school. This dynamic conference is very inspirational and motivates the students to get involved for local and international causes.

- The access to a program coordinator who will support you all year round.
